Statement of Certification and Public Notification

In accordance with Federal Aviation Regulations Part 150, these maps and accompanying documentation are submitted as the Existing and Future Baseline Noise Exposure Maps for Buffalo Niagara International Airport. To the best of my knowledge and belief, these maps were prepared with the best available information and on the basis of reasonable assumptions, are hereby certified as true, complete, and representative of future aircraft noise levels.

I also hereby certify that interested persons have been afforded adequate opportunity to submit their views, data, and comments concerning the Noise Exposure Maps and the accompanying description of aircraft operations. A copy of all written comments received during development of the maps is included in this document.

TABLE OF CONTENTS

	Page Number
1.0 Introduction	1-1
1.1 Airport Setting and Facilities	1-1
1.2 Study Approach	1-6
1.3 Study Goals and Objectives	1-8
1.4 Consultation and Public Involvement.....	1-11
1.5 The FAR Part 150 Study Documentation	1-12
2.0 Aviation Noise	2-1
2.1 Measurement of Sound	2-1
2.1.1 Amplitude	2-2
2.1.2 Frequency.....	2-2
2.1.3 Duration	2-3
2.2 Aircraft Noise Metrics	2-3
2.2.1 Maximum Sound Level (Lmax).....	2-5
2.2.2 Sound Exposure Level (SEL)	2-6
2.2.3 Equivalent Sound Level (Leq)	2-10
2.2.4 Day/Night Average Sound Level (DNL).....	2-12
2.3 Noise Modeling.....	2-14
2.3.1 INM Input	2-14
2.3.2 INM Output.....	2-15
2.4 Community Response to Noise.....	2-16
2.4.1 Annoyance	2-17
2.4.2 Sleep/Speech Interference.....	2-18
2.4.3 Health.....	2-21
2.4.4 Property Values.....	2-24
3.0 Land Use Assessment	3-1
3.1 Existing Land Use.....	3-1
3.1.1 Residential.....	3-4
3.1.2 Public Use	3-6
3.1.3 Commercial.....	3-6
3.1.4 Manufacturing and Production	3-18
3.1.5 Recreational/Conservation	3-18
3.1.6 Historic/Archaeological Sites	3-18
3.2 Area Demographics	3-19
3.2.1 Population	3-19
3.2.2 Employment.....	3-21
3.3 Land Use Planning and Control.....	3-23
3.3.1 Comprehensive Planning	3-24
3.3.2 Zoning.....	3-28
4.0 Existing Noise Exposure Map	4-1
4.1 Existing Noise Abatement Procedures.....	4-1
4.2 Aircraft Activity.....	4-2

4.2.1	Operational Levels	4-3
4.2.2	Fleet Mix	4-4
4.2.3	Stage Length	4-6
4.2.4	Day/Night Operations	4-8
4.2.5	Run-up Operations	4-9
4.2.6	Aircraft Taxi Noise	4-9
4.3	Operational Procedures	4-10
4.3.1	Runway Utilization	4-10
4.3.2	Flight Tracks	4-12
4.4	Existing Noise Contours	4-23
4.4.1	Area.....	4-25
4.4.2	Housing and Population Impacts	4-26
4.4.3	Potentially Incompatible Land Uses	4-27
4.5	Supplemental Noise Analysis	4-29
5.0	Future Baseline Noise Exposure Map	5-1
5.1	Aircraft Activity	5-1
5.1.1	Operational Levels	5-1
5.1.2	Fleet Mix	5-2
5.1.3	Stage Length	5-4
5.1.4	Day/Night Operations	5-6
5.1.5	Run-up Operations	5-7
5.1.6	Aircraft Taxi Noise	5-7
5.2	Operational Procedures	5-8
5.2.1	Runway Utilization	5-8
5.2.2	Flight Tracks	5-12
5.2.3	Flight Tracks Utilization	5-12
5.3	Future Baseline Noise Contours	5-20
5.4	Housing and Population Impact.....	5-22
5.5	Potentially Incompatible Land Uses	5-23
6.0	Coordination and Public Involvement	6-1
6.1	Advisory Committee Meetings	6-1
6.2	Public Outreach Efforts.....	6-3
 Appendices		
Appendix A	Noise Monitoring	A-1
Appendix B	Activity Forecast.....	B-1
Appendix C	Public Workshop #1	C-1
Appendix D	Public Workshop #2.....	D-1
Appendix E	Example Airport Overlay District Regulations.....	E-1
Appendix F	Public Workshop #3.....	F-1
Appendix G	Public Hearing	G-1

List of Tables

	Page Number
2.4-1 Permissible Noise Exposure	2-23
3.1-1 Land Use Compatibility With Yearly Day/Night Average Sound Levels.....	3-3
3.1-2 Community Facilities in the Airport Area	3-8
3.2-1 Study Area Population Trends	3-22
3.2-2 Workplace Employment	3-25
4.2-1 Airport Category and Typical Aircraft Types.....	4-3
4.2-2 Annual and Daily Aircraft Operations.....	4-4
4.2-3 Aircraft Fleet Mix	4-5
4.2-4 Existing Stage Lengths	4-7
4.2-5 Stage Length Assumptions	4-8
4.2-6 Day/Night Operations	4-9
4.3-1 Annual Average Arrival Runway Utilization – Daytime	4-11
4.3-2 Annual Average Arrival Runway Utilization – Nighttime.....	4-11
4.3-3 Annual Average Departure Runway Utilization – Daytime	4-11
4.3-4 Annual Average Departure Runway Utilization – Nighttime.....	4-12
4.3-5 Annual Average Arrival Flight Track Use – Daytime.....	4-19
4.3-6 Annual Average Arrival Flight Track Use – Nighttime	4-20
4.3-7 Annual Average Departure Flight Track Use – Daytime	4-21
4.3-8 Annual Average Departure Flight Track Use – Nighttime.....	4-22
4.3-9 Annual Average Touch-and-Go Flight Track Use.....	4-23
4.4-1 Area Within the Existing (2003) Noise Contours (Square Miles and Acreage).....	4-25
4.4-2 Existing (2003) Noise Impacts to Housing and Population.....	4-27
5.1-1 Future (2008) Annual and Daily Aircraft Operations.....	5-2
5.1-2 Future (2008) Aircraft Fleet Mix	5-3
5.1-3 Future (2008) Baseline Stage Lengths.....	5-5
5.1-4 Future (2008) Stage Length Assumptions	5-5
5.1-5 Future (2008) Day/Night Operations	5-6
5.2-1 Future (2008) Annual Average Arrival Runway Utilization – Daytime	5-10
5.2-2 Future (2008) Annual Average Arrival Runway Utilization – Nighttime.....	5-10
5.2-3 Future (2008) Annual Average Departure Runway Utilization – Daytime.....	5-11
5.2-4 Future (2008) Annual Average Departure Runway Utilization – Nighttime	5-11
5.2-5 Future (2008) Annual Average Arrival Flight Track Use – Daytime.....	5-16
5.2-6 Future (2008) Annual Average Arrival Flight Track Use – Nighttime	5-17
5.2-7 Future (2008) Annual Average Departure Flight Track Use – Daytime	5-18
5.2-8 Future (2008) Annual Average Departure Flight Track Use – Nighttime.....	5-19
5.2-9 Future (2008) Annual Average Touch-and-Go Flight Track Use	5-20
5.3-1 Area Within the Future (2008) Noise Contours (Square Miles and Acreage).....	5-22
5.4-1 Future Baseline (2008) Noise Impacts to Housing and Population.....	5-24

List of Exhibits

	Page Number
1.1-1 Airport Location.....	1-2
1.1-2 Existing Airport Facilities in 2003.....	1-4
2.1-1 Common Sound Levels.....	2-4
2.2-1 Maximum Sound Level (Lmax).....	2-7
2.2-2 Sound Exposure Level Concept.....	2-8
2.2-3 Comparative Aircraft Noise Footprints at Different Stages	2-9
2.2-4 Comparative Aircraft Noise Footprints	2-11
2.2-5 Neighborhood Sound Levels.....	2-13
2.4-1 Comparative Effects of Noise in Community Environments	2-19
2.4-2 Sleep Interference vs. Maximum A-Weighted Sound Levels	2-20
2.4-3 Speech Interference Levels	2-22
3.0-1 Municipal Boundaries.....	3-2
3.1-1 Existing Land Use.....	3-5
3.1-2 Community Facilities.....	3-7
3.1-3 Historic Sites.....	3-20
3.3-1 Integrated Zoning Map	3-29
4.3-1 ARTS Flight Tracks on May 1, 2003	4-14
4.3-2 ARTS Flight Tracks on May 5, 2003	4-15
4.3-3 Existing Departure Tracks	4-16
4.3-4 Existing Arrival Tracks.....	4-17
4.3-5 Existing Touch-and-Go Tracks.....	4-18
4.4-1 Noise Contours in 2003	4-24
4.4-2 Noise Contours in 2003 Compared to Existing Land Use.....	4-28
4.5-1 Comparison of Time Above and DNL Contours for 2003 Conditions.....	4-31
4.5-2 Comparative Aircraft Noise Footprints	4-32
5.2-1 Ongoing Airfield Improvements.....	5-9
5.2-2 Future Departure Tracks	5-13
5.2-3 Future Arrival Tracks.....	5-14
5.2-4 Future Touch-and-Go Tracks.....	5-15
5.3-1 Noise Contours in 2008	5-21
5.5-1 Noise Contours in 2008 Compared to Existing Land Use.....	5-25
